PROFESSIONAL SUMMARY

Enthusiastic and motivated front-end developer with a passion for creating engaging and userfriendly web experiences. Proficient in JavaScript, TypeScript, React, Nextjs and TailwindCSS, with a strong understanding of software development principles, reusable component architecture, and clean code practices. Adept at collaborating in team environments, solving complex problems, and delivering high-quality solutions that improve user experience and application performance.

CORE TECHNOLOGIES AND COMPETENCY

React: Modern JavaScript, high quality scalable user interface, modular testable components, front-end architectures, reusable code

TypeScript: Strongly typed applications, type-safe development, interfaces and generic

NextJs: Server-side rendering(SSR), static site generation, API routes, SEO-friendly applications, dynamic routing, optimized performance.

TailwindCSS: Responsive web design, utility-first styling, custom component styling, clean and maintainable styling

Version Control: Git, Github, pull requests, merge conflict resolution, team collaboration.

Collaboration: Cross-functional team collaboration, effective communication, problem-solving, code reviews, collaborative software development.

WORK EXPERIENCE

OUTVALUE

United Kingdom

Dec, 2025 - Present

- Converted Figma designs into pixel-perfect responsive web pages.
- Built reusable component libraries to speed up development workflow
- Reduced app crashes through debugging and performance monitoring.
- Built reusable components and modular CSS to maintain code-base scalability and improve development efficiency.
- Optimized web performance by implementing lazy loading, code splitting, and efficient state management, resulting in faster load time.
- Optimized front-end bundle size, improving load speed by 30%
- Collaborated closely with back-end developers, effectively integrating APIs and streamlining data transfer within the application.
- Applied Agile and continuous delivery methodologies, resulting in improved product quality and accelerated project timelines.

ZEROTECH AGENCY

Bronx, New York

Dec, 2024 - April, 2025

- Developed and maintained responsive web interfaces using React JS, improving UI performance and user engagement.
 - Collaborated with designers and back-end developers to implement features from Figma wireframes, reducing development time by 30%
 - Built reusable components and modular CSS to maintain code-base scalability and improve development efficiency.
 - Optimized web performance by implementing lazy loading, code splitting, and efficient state management, resulting in faster load time.
 - Implemented accessibility best practices to make the platform more inclusive for diverse users
-

SCRUMANAC

Lagos, Nigeria

Aug, 2023 - Dec, 2023

- Developed highly intuitive and responsive user interfaces to improve accessibility and user experience.
- Implemented industry-standard coding practices, ensuring efficient debugging,
- Optimized mobile applications to ensure seamless operation across various platforms and versions.
- Collaborated closely with back-end developers, effectively integrating APIs and streamlining data transfer within the application.
- Applied Agile and continuous delivery methodologies, resulting in improved product quality and accelerated project timelines.

Produced comprehensive code documentation, facilitating smooth onboarding for developers and users.

WEIGHTLESS NON-PROFIT ORG,

Nov, 2022 - April, 2023

- Developed and maintained a responsive nonprofit website that improved community engagement and online visibility.
 - Collaborated with designers and project coordinators to deliver digital solutions aligned with the organization's mission
 - Implemented accessibility best practices to make the platform more inclusive for diverse users
 - Built reusable components and modular CSS to maintain code-base scalability and improve development efficiency.
 - Optimized front-end code-base, reducing page load times and improving overall user experience
-

EDUCATION 2018 - 2022

Bachelor of Science : Microbiology
Lagos State University - Lagos, Nigeria
